- Built and enhanced core modules for healthcare policy management using MVC 5, Web API, MS SQL, and modern UI Forms.
- Implemented Azure-based SSO authentication and SAML signed request authentication, strengthening application security.
- Created and optimised Kafka-based data publishing pipelines, enabling seamless consumption by downstream applications.

- **Cloud (Azure):** Azure Functions, Blob storage, Key Vault, Web Jobs, Kubernetes, Azure Integration Services, Azure Service Bus, APIM, DevOps, CI/CD, Docker
- **AI Tools:** GitHub Copilot, ChatGPT, Claude
- **Version Control:** GitHub, SVN, TFS
- **Leadership & Team Mentoring**
- **Requirement Analysis & Solution Design**
- **Client & Stakeholder Communication**
- **Agile/Scrum Execution Quality-driven Delivery**

Education

- **Master of Computer Application (2010-2013)**
  CGPA: 8.06
  University: Gujarat Technological University
- **Bachelor of Commerce (2007-2010)**
  Percentage: 58.88
  University: Gujarat University
- **Higher Secondary School (2007)**
  Percentage: 67.29
  Board: Gujarat State Board
- **Secondary School (2005)**
  Percentage: 69.57
  Board: Gujarat State Board

Sept 2019-
Apr-2019

Senior Software Engineer @ *Zensar Technologies*

- MDS Photo Portal (UK Client)
- Enhanced a large-scale photo portal application using Angular 7, Web API, Azure SQL, and Azure Blob Storage.
- Built modules for OWIN authentication, image upload, and user management.

Jan 2018-
Mar 2019

Senior Software Engineer @ *Musikaar*

- J Hilburn Stylist Application (US Client)
- Delivered full-stack enhancements for a stylist-based fashion platform developed in ASP.NET MVC, Web API, and SQL Server.
- Migrated legacy UI components from Bootstrap 3 to Bootstrap 4, improving responsiveness and performance.

Oct 2016-
Dec 2017

Senior Software Engineer @ *Xmx Solutions*

- Worked on HR Management System features, including Leave Management, Punch System, Shift Allocation, and dashboards using ASP.NET, Angular 6, and Web API.
- Built an online medical store similar to Netmeds.com using ASP.NET, AngularJS, Web API, and HTML5.

Jun 2015-
Sep 2016

Software Engineer @ *Alept Consultancy Ltd*.

- Worked on multiple applications using ASP.NET MVC, Knockout JS, and Web API, including healthcare and logistics systems like Beam Readers, P2P Shipping.
- Developed the Astronics Application using the **Sitefinity CMS tool** integrated with .NET MVC architecture.

Jun 2013–
May 2015

Software Engineer @ *Gateway Technolabs*

- Built healthcare and accounting applications using ASP.NET MVC, Telerik, Kendo UI, JavaScript, and MS SQL Server.
